

2BM Qualification Check

Maintain safety and compliance in the workplace

Background

Following regulations and checking qualifications can often mean a huge workload for organizations both from an operational and administrative perspective.

The 2BM Qualification Check Application helps you verify employees' qualifications and certifications in the field, and notify managers if a qualification is absent or outdated.

Business Benefits

Using innovative technology like GPS coordinates and captured signatures, the App is an extremely valuable tool in maintaining safety and compliance in the workplace and ensuring a proficient and qualified workforce. The app gives you:

- Real-time access to employee's qualifications and certifications
- Intuitive & visually appealing
- Full integration with SAP backend
- Faster communication

A 3 Step Process

1. Search: fast lookup of employees through Employee ID or First/Last Name; use wildcards to verify qualifications faster
2. Validate: verify employee and qualifications through employee picture & details; notify manager using his email from SAP
3. Notify: contact manager with 1 click; employee signature and location is included in email

About 2BM

2BM is one of the leading consultancies within Enterprise Mobility and SAP HCM in the Nordic region. We are an innovative and business-oriented consulting and software company offering competent and dedicated people with insight in tomorrow's solutions and technology.

The company focuses on the development and implementation of mobile solutions for enterprises and develops and implements innovative mobile solutions using back-end and mobile device-independent Enterprise Mobility platforms.

2BM is also a full service provider within Human Capital Management, delivering customizable solutions such as: SAP HCM and SuccessFactors implementations, Payroll outsourcing and Talent Management Consulting.

Our vision is to be the leading company within the creation and operation of the future workplace and processes, by bringing tomorrow's solutions and technology into today's workforce and thus evolving the way of doing business"
